

SGT Davis Demo Support Form

Synthetic PM demonstration source document

Rated Soldier: SGT James Davis Unit: 721st Engineer Company UIC: W8A0AA

Rating period demo facts only. This document is not an official Army form.

Leads

On 12 June 2026, SGT Davis led a nine-Soldier team through four battalion live-fire rehearsal iterations with zero safety violations. He corrected three range-control deficiencies and trained two junior team leaders on PCC/PCI standards.

Develops

From March through June 2026, SGT Davis conducted six structured training sessions for twelve Soldiers. Ten Soldiers improved their individual task evaluation scores, and two junior leaders were certified to lead future training.

Achieves

SGT Davis reorganized the team's equipment accountability process, reducing monthly inventory reconciliation time from four hours to ninety minutes and resolving eleven previously unmatched serial-number records.

Intellect

SGT Davis developed a standardized range packet and pre-execution checklist that was adopted by three squads during the June training cycle.
